VARIOUS MATTERS.

The next meeting of the Colonial Dames will be held in Hartford in May.

A number of addition trains will be run tomorrow because of the big football game.

Don't forget I. O. O. F. whist and dance tonight—adv.

Freight cars coming down from the north have several inches of snow on the roofs, a reminder of winter in Canada.

At the Reform Union rally in Hartford Wednesday at the Lutheran church, the invocation was by Rev. G. F. Hartwig of Rockville.

At the National Milk and Dairy show, just held in Chicago, M. Keeney of Somerville, Conn., won third place among milk producers.

G. A. R. men recalled this week that 45 years ago, on November 20, 1866, the first national encampment of the G. A. R. was held at Indianapolis.

The officials of the Y. M. C. A. are arranging for Charles R. Wakeling, E. H., to give a stereoscopic lecture on Ben Hur, The Boy Convict, in the near future.

Forty-one years ago today, November 22, 1871, the steamer City of New London of the Norwich line was burned near Allys Point, with a loss of 17 lives.

The good roads pilot car finished its 400-mile run about the state with the inspection Wednesday of the stretch of road between New London and Westerly.

A dance will be given by the Yantic Fire Engine Co. Friday night. Music by Bullard's orchestra—adv.

Clayton Clough of Tolland recently shot a large deer. This is the second one in less than a year that he has shot, because they were eating his fruit trees.

At the poultry exhibit at New Haven the S. C. Black Orpingtons shown by Tyler Crutenden, Crescent Beach, won three prizes: First, cock, third hen, third cockerel, first pullet.

Although the distance to Hartford by the New London-Salem route is 15 miles shorter than by Saybrook, nobody ever thinks of going that way, the road is so poor.

Wednesday, the eighth anniversary of the founding of the order of Owls, was celebrated by nests all over the state, the colors of the order, blue and white, being generally displayed.

At President Woolley's annual reception to the faculty and members of the staff at Mt. Holyoke college Wednesday evening, one of the ushers was Miss Ruth Turner of Groton, Conn.

At the meeting of the National Patrons of Husbandry, in session at Spokane, Wash., I. A. Sherwood of Trumbull and L. H. Healey of West Woodstock, national overseer, are present.

Come and see "Polly in Politics" at the Church of the Good Shepherd, Friday evening, Nov. 22 at 8 o'clock. Admission 25c—adv.

Mrs. Frederick A. Johnson of Montville, president of the Equal Suffrage league, is in Philadelphia, attending the national convention of the suffrage party, which continues until the 28th.

A window is to be placed in the Groton Monument house in memory of Aaron Kliney, who was pastor of the Groton Congregational church at the time of the battle of Groton Heights in 1781.

Boston & Albany and New York, New Haven & Hartford crew dispatchers have been in session in Boston, formulating a winter time card, which will be come effective November 24.

The Thanksgiving vacation for the classes at Holy Cross college, where there are several Norwich students, will commence Wednesday, November 27, and close the following Sunday evening.

Next Wednesday morning, Harry J. Sullivan of New London and Miss Alice Killeen, daughter of ex-representative Joseph Killeen of Montville, will be married at St. John's church, Uncasville.

Poultry fanciers are finding useful suggestions in a book recently received at the Otis library, the record of the American Poultry association, a complete description of all recognized varieties of fowls.

Miss Lydia M. Haas, 49, died Wednesday at her home at 145 Church street, Worcester, Mass., from sarcoma. She was born in Rockville, the daughter of Daniel and Henrietta L. (Kaemther) Haas.

The following reports of the number of children over 4 years old and under 18 years old in the school district have been received in the office of the state comptroller: Stamford 6744, Vernon 1895; Glastonbury 1030.

Bank Commissioners Fred P. Holt and Norris S. Lippitt at work and signing 1900 checks for the 50 per cent dividend to be paid depositors of the Windsor Locks Savings bank, now in their hands as receivers.

Dr. Frederick C. Fowler of Lebanon, who has been spending some time in New London, is to leave for a complete change after New Year's. Mr. Fowler, who has been suffering from nervous trouble, is greatly improved.

Harvard alumni hereabouts will attend the annual meeting and dinner of the New England Federation of Harvard clubs in the Allyn house in Hartford tonight (Friday). Dr. Homer Gage, president of the federation, will preside.

Dr. Stephen J. Maher, head of the state tuberculosis commission, reports 100 patients each in the sanitariums at Hartford and Weymouth with 70 at Shelton. New sanitariums are being built at Norwich and in Middlesex county.

Miss Annette B. Richmond, home in Norwich on a furlough, who has been addressing church societies and other gatherings on her experiences in the mission field, lived in Shanghai, China, fourteen years, teaching in that city most of the time.

The United States civil service commission announces a competitive examination December 4 for deputy shipping commissioner (male) to fill vacancy in the office of United States shipping commissioner, Providence, R. I., at salary of \$2,000 a year.

November 22, in 1865, was the birthday of Lafayette S. Foster, a native of Franklin, who died in Norwich September 19, 1890. After Lincoln's assassination, as president of the senate, he was for a time acting vice president of the United States.

Washington papers say the assistant secretary of state and Mrs. Huntington Wilson have returned from New York to reopen their home on K street for the season. Owing to Mrs. Wilson's mourning for her father, they will take no part in general society this season.

Norwich alumni of Yale have this

week received plans of the new stadium with subscription blanks.

The corn show at Boston is attracting visitors from this section.

A meeting of state school supervisors is to be held in Norwich this (Friday) evening.

PERSONAL

Capt. C. T. Potter of Norwich has been at his summer home in Noank for a few days.

Miss Grass of Dunkirk, N. Y., is spending several days at Mrs. Mayberry's, on Broadway.

Mr. and Mrs. Walter Backus of South Windham have returned home after a visit to Mystic.

Deputy Collector George R. Case of Hartford is making a brief visit in Norwich with Mr. and Mrs. Hermon L. Case of Robbins court and Mrs. Charles E. Case of Laurel Hill avenue.

James W. Sheffield, for the past fifteen months local salesman for the National Biscuit company, has been promoted to manager at South Framingham, Mass. He will leave Norwich on Wednesday next and after two or three days' vacation will begin his new duties.

ATTENDED SENATE REUNION.

Judge Ayling and Others from Eastern Connecticut at Gathering of 1893 Legislators.

Judge Nelson J. Ayling of this city, Arthur M. Brown of Jewett City, Charles A. Gates of Willimantic, Thomas Hamilton of Groton, Frederick A. Jacobs of Danielson and Thomas F. Noone of Vernon, were eastern Connecticut representatives at Hartford on Wednesday for the reunion of the state senate of 1893, together with the clerk, George E. Hinman.

Senator Frederick F. Fussenich of Torrington, was the host and he dispensed a delightful hospitality in that gracious manner which made him a favorite with his colleagues when they all sat together, forgetting their partisan differences, and making laws for the state.

Telegrams and letters of regret for non-attendance were received from those absent.

Since the session of 1902, two members, John M. Ney of Hartford and Lloyd Nash of Westport have died.

The reunion was a pleasant social function. The health of President Taft, of his successor, President-elect Wilson and of Governor Baldwin was drunk. The remarks made in response to the toasts were highly complimentary of the distinguished persons whose names were associated with them.

The invitation of Senator Tracy of Waterbury to hold the next reunion as his guests was accepted. It was decided to keep up the annual reunions until there was only one survivor of the session of 1903.

AT DAVID THEATER.

Vaudeville and Motion Pictures.

Three well chosen acts and all strong in their class made up the change in vaudeville of the David theater Thursday, providing an up to the minute show in all particulars. For comedy acrobatics, the act of the four men, a neat turn in which the man has hooped somersaults for his star part, and the woman of the team produces a novelty in her hand-stand dance. Estelle Rose, character comedienne, is one of those who puts over a bright and distinctive in all her different poses and the bill rounds off with the Four Baldwins, who are a whirling musical act that captures the house. Piano and stringed instruments are called into play along with their voices and they get an unmistakably warm reception at every appearance. Feature numbers are all on the films shown in the moving pictures.

AT THE AUDITORIUM.

Vaudeville and Motion Pictures.

A pleasing bill is scheduled for the last half of the week at the Auditorium and each number met with a warm reception at Thursday's performances. The Chorus Sisters have a pleasing singing and dancing number and display well tuned voices. Their costume changes add interest to the act. Jack Lyle has an entertaining line of new songs and original songs and makes a hit with his hearers. The final number of the programme is presented by the Gillian Williams Four, a colored comedy quartette, who prove excellent entertainers.

Well selected photoplays complete the bill.

Religious and Wedding.

A Hartford newspaper reports the marriage of Frank Bettencourt of New London and Miss Josephine Cowley, who left her home in New Britain Saturday without letting her friends into the secret. Bettencourt is in New London and is averse to telling of his wife's whereabouts, stating that for information he could not give out any information for at least ten days.

Miss Cowley lived with a friend, Miss Jessie Walsh, of North Burritt street, New Britain. She is the daughter of Policeman Frank Cowley of Hartford.

Staying Power

COPPER PLANT SOON OPERATING

Mackay Copper Process Company Occupying Office at New Station on Laurel Hill—Main Plant Can Be Working in About Four Weeks—Exterior Finish is all in Cement—Railroad and Dockage Facilities.

The main heating plant of the Mackay Copper Process company, on the corner adjoining the Thames plant on Laurel Hill, is rapidly nearing completion, and it is expected that the station will be in operation within three or four weeks. The office building was completed some time ago and is now occupied.

Office in Bungalow Style.

This building is located above and to the east of the plant and is of one story, in the style of a bungalow. The exterior is finished in cement and large windows give ample light to the interior. On the front of the building, towards the rear of the Laurel Hill schoolhouse, are the main office, the office of the chief executive, and the engineering department, where plans for various plants all over the world, wherever the Mackay process may be in use, are drawn.

Chemical Laboratory.

On the rear of the building is the chemical laboratory, which includes a small testing plant, a small furnace for roasting ore, and electric generators, and is well equipped with all instruments and appliances for chemical and electro-chemical analysis. Ore may be tested here in a small way by the same process as is used in the main plant.

Main Plant Along Railroad.

The main plant is located on the spur track close to the main road of the New York, New Haven and Hartford line, and is convenient for the unloading of ores and supplies. There is also a dock on the river which makes the plant easily accessible by boat. This building, like the office building, is finished on the exterior in cement.

The Equipment.

Work on the plant at present is confined largely to the installing of machinery, piping and laying of the cement floors. The equipment of the plant includes four crushing machines to reduce the ore to the proper degree of fineness, automatic machinery for conveying the ore, chemical storage tanks, chemical pumps, the electrolytic refining works, vats for leaching the ore with chemical, a large motor generator for making the electricity used in the refining, and the heating plant for both buildings. Sunk in the ground just outside the building is a large tank which will hold a car load of crude oil, which is used as a fuel for

roasting the ore where the presence of certain elements in the composition of the ore make necessary this operation. Much of the ore requires no roasting. Large coal bins are also located beside the track. All the machinery is on hand, all the foundations are in, and much of the apparatus has been set up.

Crushing and Roasting.

There are two floors in the plant, one being arranged in a continuation of the other on a different level, made necessary by the steepness of the bank on which the plant is constructed. The lower floor is occupied by the heating, planing and crushing apparatus. The ore runs from the crushers to a bin and, when required, thence to the roaster. Leaving the roaster, the ore is taken by automatic buckets outside the building, where it is cooled by the air; and up the outside of the building to the upper floor, where the chemical process is carried on.

Treated in Big Vats.

The ore is dumped into huge vats. From a series of vats at a higher level the chemical is run over the ore, and later with the copper in solution is drawn into the electrolytic vats. Here the refined copper is precipitated on copper plates and is later cast into bars. The chemical solution is left pure by the electrolytic process, and is pumped back into the original vats ready for use again. Small cars on a track run under the ore vats, and when the chemical is run over the ore, the solution has been drawn off, the bottom of the ore vat is opened and the residue dropped into the cars and carried off.

On account of the action of the chemical on metals, all the vats are of wood, fastened with wooden pins, and the pipes which carry the chemical are made to order of hard rubber, which is not affected by the chemical.

Ores Tested in Laboratory.

In the small laboratory in the office building testing of ores on a small scale is now carried on. When the scale is completed it will be possible to care for thirty tons of ore at a charge, the process requiring about three days. A test may be continued for several weeks on the same quality of ore. The company already has business on hand sufficient to keep the plant busy all winter testing ores from Utah, Arizona, South America, Germany, South Africa, Spain, Norway and Canada.

Needs of the Country Church.

Mrs. C. C. Treat's paper was on the needs of the country church. The time has come, she said, when we must give more power and more importance to the country church. Five things with which we are more of the Gospel, more able ministers and salaries on which they can subsist, co-operation with other churches, and, if necessary, combination with other churches, the removal of pauperism, and systematic giving.

Ought to Have Better Ministers.

On the subject of ministers, Mrs. Treat said that the country parish was the one which needs the greatest and strongest, as here is the greatest field. We can't expect the best of ministers, she said, to come to the country church when the salary is not sufficient to give him a decent living, and to allow him to educate his children. The ministers in many country places are of small calibre and the salary is not sufficient to attract any better class of preacher. The small communities, Mrs. Treat said, are unable to support four or five churches of various denominations, and the way to increase the power of the church here is to co-operate or to combine the churches. The church resulting from such a union would be much more efficient, could have a much better pastor and would have much more influence for good in the community than all the others when separate. By federation the denomination may be lost sight of, but the purpose of the church is not to teach the denomination, but to teach the gospel and thus the move would be a success.

It seems that much more could be done to eliminate pauperism in the rural areas where all seem so ready to emphasize the success of the rich and where the poor are ignored and become more poor.

What Municipality Does.

Mrs. George Ashby spoke on the municipality as a redemptive agency, emphasizing the work of recent years towards the prevention of diseases, towards more sanitary conditions in public institutions, and towards improvement in tenement conditions. Mrs. Shepard B. Palmer spoke on practical philanthropy and told of the work towards bettering tenement conditions in England. The solution of the housing problem, she said, lies in personal service, taking account not only of the buildings but of the people who occupy them.

The final paper was read by Miss Fields and was on the church as a redemptive agency.

HANDSOME BALDWIN.

Raised by C. H. Savage on Farm at Storrs—Apple Measures Over Twelve Inches in Circumference.

C. H. Savage, who conducts a farm at Storrs, Conn., raised a fine crop of apples this year, and the finest fruit in the quality and size of his Baldwins. In displays at Hartford, Rockville, Willimantic and Berlin he took first prize in all except one place. Mr. Savage's fruit shows what can be done when a grower gives attention to his orchard. The largest of the apples measures over a foot in circumference, and less than 150 of them would fill a barrel. The average apples were large and show what can be done on Connecticut farms.

Montville Woman Seeks Divorce. Louise Carter of Montville has brought suit for divorce from her husband, Edward Carter, for non-support. Papers were served Tuesday morning, and are returnable at the next term of the superior court. Mrs. Carter asks for the custody of her four year old child.

The earliest mention of coal is said to have been made by Theophrastus

Stomach Sufferers

PAY NOTHING UNLESS CURED

A POSTAL WILL BRING TRIAL TREATMENT AND HISTORY OF FAMOUS PEOPLE.

MI-O-NA Stomach Tablets surely do end all indigestion and stomach misery and to prove it we will send a trial treatment, an interesting booklet, and tell you exactly how to banish all stomach trouble and put your stomach

in fine shape or not a cent to pay. Just say on a postal or in a letter "Send me free trial treatment of MI-O-NA" and you will never be sorry—address Booth's MI-O-NA, Buffalo, N. Y. The Lee & Osgood Co. guarantee them. A large box for 50 cents.

Diamonds

Just now we are showing an extra large line of specially mounted small

DIAMONDS at prices from \$15.00 to \$35.00.

These are genuine bargains. Call and see for yourself.

Ferguson & Charbonneau FRANKLIN SQUARE

Saturday is the last day of the hunting season. After Saturday there will be no lawful shooting of gray squirrel, pheasant, partridge, woodcock or quail. Rabbit hunting may be continued with a gun and dog until December 1 and from December 1 until January 15 with a ferret and dog, but not with a gun. No licenses have been issued since November 16, the last being as follows: November 13, Frank B. Decker, Edward Weinert; November 14, Edgar Russ; November 15, Daniel Lynch; November 16, Jules Lendry.

WILL SPREAD ABROAD CHIEF STANTON'S RULES

Magazine Asks for His Recent Suggestions to Boys and Girls on Fire Prevention.

A New York magazine has heard of Chief Stanton's list of suggestions on fire prevention which he made recently in a talk before the clubs of the United Workers. They have sent to get a copy of his "Please Don'ts" and "Learn To's" which they propose to give wide circulation as a suggestion for other cities to follow in the instruction of their boys and girls.

Superior Court Short Calendar.

When the superior court adjourned on Thursday afternoon here after receiving the verdict in the Crutenden vs. Williams case, the jury was excused till Tuesday, but there will be a short calendar session for motion list this morning.
